
Science Fair 2018

River Valley School - a safe and happy place to learn

River Valley School is hosting a Science Fair this year for all the students in our school. The winners in each grade will have the opportunity to move onto the Mountainview Science and Technology Society's Science Fair. Science Fair presents an opportunity to inspire and encourage all students to explore and investigate their world through hands-on research, individually or as part of a team. It also gives them the chance to interact with adults working in many areas of science from education, applied science, technology and theoretical studies.

River Valley School is asking for your help as a Science Fair Project Judge at our Science Fair on Thursday, February 8th. We need judges for all levels, Kindergarten to Grade 8, and the only criterion for a judge is the enjoyment of working with young people! We'll provide coaching and training.

If you would like to serve as a judge please contact Michelle Hindbo at River Valley School by phoning (403) 638 - 3939 or via email mhindbo@cesd73.ca. As our school is Kindergarten to Grade 8 there is a possibility that you may be judging entries from a variety of grade levels. If you prefer to judge only specific grades, please let me know.

If you are able to judge I would need you here at the school Thursday, February 8th at approximately 8:30 a.m. so that I can explain the procedures for judging and give you a chance to orientate yourself with the projects. Judging starts about 8:50 a.m. and I hope to have judging completed by noon at the latest. Treats, coffee and water will be provided, as well, as a light lunch later in the morning.

Thank you for taking the time to consider judging the River Valley School Science Fair. If you know of anyone else who may be interested in being a Science Fair judge, please feel free to share this information with them.

Sincerely,
Michelle Hindbo
River Valley School Science Fair
