

Information Relative to Student Placement -- Spring 2021

At River Valley School we strive to place children in the classrooms where they and others are offered the best opportunity to learn. Teams of teachers develop class lists -- the team includes your child's teacher, teachers from your child's grade, teachers from next year's grade, inclusive education teachers and administrators. The team considers a variety of academic, social and emotional factors before a child is assigned to a class.

To ensure this process works as efficiently as possible, you are invited to complete this [Google Form](#) to provide us with additional insight about your child for the team to take into consideration. Even if you have spoken with your child's teacher regarding placement for next year, we need you to complete the information form so this communication is captured and can be utilized by the team in case of an unforeseen circumstance like a teacher medical leave etc. Teachers have numerous conversations with families throughout the year and the best way to provide current and up to date information regarding placement for next year is both through a chat with the homeroom teacher, AND completion of the placement form. **We would ask that you please complete and submit this form by May 20 so we can begin the process.** Thank you again for taking the time to help us develop a high quality learning environment for your child.

Sincerely,

Leslie Cooper-Shand

Principal, River Valley School
